STEPHANIE CHENG

12802 Whispering Hills Drive   Dallas, TX 75243   (972)-898-2925   contact@scheng.io

Software developer with 5+ years experience in web and software development. Passionate about building accessible tools to help others and learning everything there is about computers.

PROFESSIONAL EXPERIENCE

APRIMA MEDICAL SOFTWARE INC., Richardson, TX
Software Developer, November 2017 – present

- Updated old winforms UI to a sleeker Angularjs application in order to improve user experience.
- Held unit testing workshops, instituted architecture reviews, and led the effort to increase code coverage to reduce bugs and improve QA testing.
- Integrated practices and providers with labs, billing, and account management services in HL7 providing an easy interface with external services.

SIEPE LLC, DALLAS, TX
Software Developer, November 2015 – October 2017

- Collaborated with fund managers on building web tools dedicated to simplifying the trading of stock options.
- Built a daily position monitoring dashboard to give traders a quick point of reference.
- Worked with implementations to design and develop job scheduling scripts in SQL as well as a corresponding web interface for script management.

DONORDIRECT.COM, Richardson, TX
Software Developer, November 2013 – October 2015

- Designed and built a responsive web template to dramatically cut down on product development time.
- Worked directly with clients to implement requested eCommerce enhancements.
- Developed a mobile-based application to help ministers deliver aid to less developed areas with little technology.
- Contributed to an ERP application devoted to empowering ministries with constituent management and an integrated eCommerce website.

SLATE TECH CO., Dallas, TX
Web Developer, June 2013 – October 2013

- Built a web app in PHP/JavaScript to facilitate communication between doctors and nurses under HIPAA guidelines.
- Architected a shared calendar system to make scheduling easier for healthcare professionals.
